Interior & Exterior Paint

ULTRA PREMIUM

Scuff-Tec

- **Scuff-Resistant Technology** offers washability, stain and scuff resistance, all while delivering a sleek, silk-like finish
- Anti-microbial properties
- Remarkable durability
- Low VOC

Scuff-Tec is a line of **ultra premium-grade** paint, designed with **Scuff-Resistant Technology (SRT)**, a result of a fusion of high performance acrylic urethane cross-polymer technologies. Scuff-Tec is perfect for high-traffic environments and any surfaces that require scuff and burnish resistance.

Finishes: 9210 Matte, 9220 Satin

ULTRA PREMIUM

Polytec

- Resists abrasion, stains, moisture, and household or industrial cleaners
- Adhesion to plastic surfaces
- Non-yellowing finish
- Low VOC & low odor
- Meets MPI Standards
- Qualifies for LEED credit

Polytec is a line of **polyurethane acrylic** finishes for interior and exterior residential and commercial surfaces when a highly durable, chemical resistant, non-yellowing enamel finish is desired. Polytec is perfect for interior cabinets, wood paneling, doors, frames and exterior handrails.

Finishes: 5710 Flat, 5730 Eggshell, 5740 Semi-Gloss

PREMIUM PLUS

Carefree

- Excellent hide & coverage for a uniform finish
- Anti-microbial properties
- Low VOC & low odor
- Qualifies for LEED credit
- Meets MPI Standards

Carefree is a line of **100% acrylic** paint products used for interior and exterior residential or commercial applications where durability, stain, and dirt resistance is desired. Carefree is perfect for primed drywall, concrete, masonry, wood and metal.

Finishes: 8100 Flat, 8200 Velvasheen, 8300 Eggshell, 8400 Semi-Gloss, 8500 Gloss

PREMIUM PLUS

Protec

- Corrosion Resistant
- Can be used as a DTM
- Excellent resistance to abrasion, moisture & chemical fumes
- Low VOC & low odor
- Qualifies for LEED credit
- Meets MPI Standards
- Super Compliant

Protec is a line of **alkyd emulsion enamel** finishes for both interior and exterior surfaces, and architectural and light industrial applications. Protec is perfect as an industrial maintenance coating for metal, wood, concrete, and masonry surfaces.

Finishes: 9700 Satin, 9800 Semi-Gloss, 9900 Gloss

PREMIUM

Acriglo

- Provides a tough, flexible finish
- Outstanding resistance to chalking & fading
- Meets MPI Standards
- Super Compliant

Acriglo is a **100% acrylic** paint line ideal for commercial, institutional, property management, and new home construction projects. Designed for properly primed concrete, stucco, masonry, wood (new or previously painted), and metal.

Finishes: 1750 Velvasheen, 2800 Flat (Ext. only), 7000 Semi-Gloss, 7100 Flat (Int. only), 7500 Eggshell

Vista Paint Is...

Vista Paint is the industry leader when it comes to relying on renewable energy. At Vista Paint, our products are manufactured using 100% solar energy.

Ethylene Glycol (EG), is a toxic air contaminant and hazardous pollutant. EG is a solvent used in some water-based paints. Vista Paint has replaced EG with non-toxic alternative solvents.

PREMIUM

Duraglide

- Exceptional touch-up
- Outstanding hide
- Good washability
- Good color retention & adhesion
- Meets MPI Standards

Duraglide is a **vinyl acrylic flat** finish designed for interior and exterior surfaces where an ultra-flat finish is required. Duraglide is perfect for properly primed concrete, masonry, drywall, stucco, plaster and metal. Not recommended for exterior wood without proper priming.

Finishes: 1000 Flat

PREMIUM

V-PRO 5000

- Provides a tough, flexible finish
- Outstanding resistance to chalking & fading
- Meets MPI Standards
- Super Compliant
- Qualifies for LEED credit

V-PRO 5000 is a **Zero VOC, premium-grade, 100% acrylic** paint line ideal for primed walls and ceilings in commercial and institutional projects. Suitable for new interior and exterior drywall, plaster, masonry, concrete, and block. Not recommended for horizontal surfaces.

Finishes: 5100 Flat (Int. only), 5200 Velvasheen (Int. only), 5300 Eggshell, 5400 Semi-Gloss

Exterior Paint

PREMIUM PLUS

Duratone

- Exceptional resistance to fading & chalking
- Exhibits excellent color retention, hide & adhesion
- Superior washability, stain & mildew resistance
- Meets MPI Standards

Duratone is a **matte flat, 100% acrylic** finish used for exterior applications where the highest performance in durability and coverage is required. Duratone is perfect for properly primed new or previously painted wood, stucco, concrete, masonry and metal.

Finishes: 2000 Matte Flat

PREMIUM PLUS

Weather Master

- Superior long term elasticity & elongation under extreme weather conditions
- Resists mildew & dirt pick-up with excellent color retention
- Water resistant
- Meets MPI Standards

Weather Master is a **100% acrylic medium build elastomeric** coating, designed for exterior, vertical application when elasticity and elongation properties are required. Weather Master is perfect for properly primed concrete, stucco, plaster, masonry surfaces and all textures.

Finishes: 1900 Flat, 1925 NC Low Sheen

PREMIUM

Acribond

- Excellent color retention
- Mold and mildew resistant
- Excellent flow & leveling for easy application
- Superior adhesion
- Meets MPI Standards

Acribond is a **100% acrylic solid-bodied flat stain and finish** for exterior surfaces and applications when excellent performance in durability and coverage are required. Acribond is perfect for properly primed concrete, stucco, masonry, new or previously painted wood, and metal.

Finishes: 3000 Flat

SUPERIOR

Coverall

- Offers excellent alkaline resistance
- Matte flat finish

Coverall is a **100% acrylic matte flat** finish created for commercial and institutional construction where a durable, easy to apply paint finish is required. Coverall is perfect for exterior tilt-up masonry, stucco, CMU, repaint of wood siding and trim.

Finishes: 2200 Flat

Interior Paint

SUPERIOR

Coverall

- Exceptional resistance to fading & chalking
- Exhibits excellent color retention, hide & adhesion
- Superior washability, stain & mildew resistance
- Meets MPI Standards

Coverall is a line of **vinyl-acrylic enamel finishes** formulated for commercial, institutional, and new home construction. Coverall is perfect for properly primed new and existing interior drywall, plaster, concrete, masonry, and wood. Not recommended for wood cabinets and doors.

Finishes: 1200 Low Sheen, 1300 Semi-Gloss, 1500 Fastwall (Int. only), 7400 Semi-Gloss, 7500 Gloss

SUPERIOR

V-PRO 300

- Excellent scubbability & washability
- Gloss uniformity & minimizes wall imperfections
- Zero VOC
- Super Compliant

V-PRO 300 is a **latex, Zero VOC** quality grade of flat and enamel paint products, designed for repaint maintenance and multi-family housing. V-PRO 300 is perfect for properly primed walls and ceilings including masonry, plaster, concrete, acoustic, ceilings, and wood surfaces.

Finishes: 310 Flat, 320 Velvasheen, 330 Eggshell, 340 Semi-Gloss

Primers and Sealers Interior and exterior primers for every type of substrate.
