2200 COVERALL

PREMIUM 100% ACRYLIC FLAT

2200 Coverall is a 100% acrylic exterior coating designed for use on tilt-up concrete and masonry surfaces. It provides excellent resistance to alkali and delivers a smooth, flat matte finish. This product is also suitable for use on metal, wood siding and trim, making it a versatile option for a range of properly primed exterior applications.

Key **benefits** of 2200 Coverall include:

- **Excellent Alkaline Resistance**
- **100% Acrylic Formula for Long-lasting Performance**
- **Easy Application**
- **Ideal for Commercial and Residential Exteriors**
- **Good Adhesion & Coverage**
- **MPI Approved**

This product is part of the **Coverall Series**, a line of specialty finishes designed for a variety of both interior and exterior surfaces. For more information about the full **Coverall Series**, please visit: www.vistapaint.com/products/coverall-line
