# V-PRO 5000 SERIES

## 100% ACRYLIC PREMIUM LATEX

The **V-PRO 5000** series is a premium line of **Zero V.O.C.\*** interior and exterior latex paint designed for primed walls and ceilings. It is suitable for various surfaces such as masonry, plaster, concrete, acoustic tiles, wood, and metal. This high-quality product boasts outstanding washability and high scrubbability, effectively minimizing wall imperfections. Additionally, the V-PRO 5000 series is formulated with components that inhibit the growth of microbes on the paint surface.

Key **benefits** of the V-PRO 5000 series include:

- **Low Odor & Zero V.O.C.\***
- **LEED Compliant**
- **Excellent Touch-up Capability**
- **Scrub Resistance**
- **Splatter Resistance**
- **Available in Our Complete Range of Tint Bases**
- **MPI approved**

**Zero V.O.C.\*** is defined as no VOC-containing solvents added during the manufacturing process of this product. V-PRO 5000 products meet the SCAQMD's Super Compliant Coatings category.
