WEATHER MASTER

PREMIUM+ MEDIUM BUILD ELASTOMERIC

Weather Master is a premium-plus 100% acrylic, medium-build elastomeric coating designed for exterior use on concrete, stucco, plaster, masonry, and wood, including T-111 siding and other properly prepared vertical surfaces. It delivers outstanding performance with excellent elasticity and elongation characteristics. The coating resists mildew and dirt pick-up while providing exceptional color retention.

Key **benefits** of Weather Master include:

- **Prolongs Life Expectancy**
- **Reduces Repaint**
- **Reduces Surface Imperfections**
- **Reduces Discoloration**
- **Resists Cracking & Peeling**
- **Resistant to Efflorescence**
- **Breathable Coating**
- **MPI Approved**
- **Dirt Pick-up Resistance**
- **Fine Medium Coarse Texture**
